

# Class USA

From September, you will be part of Class USA in year 6.

Your teacher is Miss Riley.

Hi everyone. I'm sure you'll all know me from seeing me around school and from singing assemblies. This will be my seventh year in year 6 so I know exactly how to help you prepare for the year 6 curriculum, SATs and the transition to high school. Year 6 is a fantastic year and you will learn about some interesting subjects.

In September, we start with place value in maths and in English, we will be reading one of my favourite books, *The Lion, The Witch and The Wardrobe*. In science, we will be learning about the circulatory system and in geography, we will be looking at climate change. Those are just a few of the many subjects we cover.

You will come in through the year 6 door (left). To get to the cloakroom, you go through class. You will find your name over one of the pegs there. There's also a bench where you can store bulky bags.

I know some of you will be nervous about coming to year 6. Here's what one of our current year 6s said:

*"I was worried about coming to year 6 because I thought the work would be too hard and Miss Riley would be strict. But I've had a great time and Miss Riley makes me laugh. I've learnt lots and it has been my favourite year of school. So don't worry, you'll love it."*

Oliver, year 6.

---

*Fun facts about me: My favourite lessons are English and history (which is a good job really as I'm the English and history co-ordinator!) I love animals and my favourite animal is a horse. I have my own horse, called Indi, who takes up a lot of my time! I also love eating chocolate, reading and hearing and telling jokes. .*
