

# CREATIVE HEALTHY HOLIDAYS

Creative Healthy Holidays is a free summer programme jam-packed with healthy creative activities for children and young people living in Calderdale.

**What does it involve?** Each day children and young people will be taught by a different artist educator who will guide them through inspirational and instructional creative sessions grounded in their creative practice, processes and the inspiration they use. Healthy vegan hot lunches, snacks and refreshments will be provided by partner Artichoke Foods.

**Who is it for?** Children and young people aged 8-13 who are eligible for free school meals can attend as many sessions as they wish. Come and try just for a day, for one week to engage with a range of activities, or for all four weeks to develop a bursting portfolio of work!

**What ability level?** All abilities are welcome! There will be a support assistant on-site with training in Special Educational Needs and Disabilities to enable accessibility.

**When is it?** We have morning (9am-1pm) and afternoon (1-5pm) sessions available Monday-Thursday between 9th August and 2nd September 2021. There is a maximum class size of 15, with a waiting list to be made for any oversubscribed sessions.

**Where is it?** Artworks, Shaw Lane, Halifax, West Yorkshire, HX3 9ET

**How do you sign up?** To book onto these sessions, and for more information, please visit [www.theartworks.org.uk/creative-healthy-holidays](http://www.theartworks.org.uk/creative-healthy-holidays)

This project has been made possible thanks to funding gratefully received from the Community Foundation for Calderdale, who help local people do extraordinary things. They fund and support a vast range of activities that help young people, older people and disabled people, as well as homelessness, sports, environmental, education, and mental health projects, plus everything in between. The Community Foundation for Calderdale works with local communities to inspire and encourage projects that they want to see, to make their neighbourhoods happier, healthier and safer places to be.
