Dear Parents / Carers

St Andrew's Junior School are excited to be taking part in our own Science Fair! Children in all year groups are invited to design their own science board as part of our partnership with The Ogden Trust. Our aims of the fair are for children to develop independent learning skills, follow a line of enquiry and to develop confidence. Children will get to share their love of science with parents, alongside developing their communications skills.

The fair will be held on Wednesday 11th June, where children will showcase their science boards in our school hall. Three winners will be chosen from the following categories:

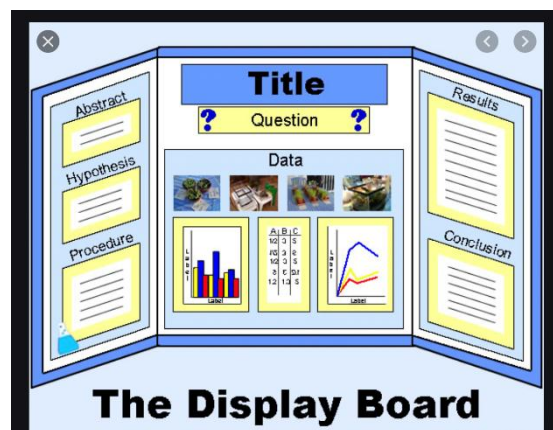

- Year 3 and 4 winner
- Year 5 and 6 winner
- Children's choice winner

The three winners (and their adults) will be invited to show their work at The Ogden Trust Science Fair at Copley Primary School on 26th June 6pm-6.30pm. An overall winner will then be chosen from the 7 participating primary schools and will be awarded with the Oliver Smithies Trophy.

Children have been given the opportunity to get a planning sheet from their teachers. Please hand this in to your class teacher as soon as possible. Science boards will then be available for collection 23rd May (if you wish to purchase your own in a colour other than white, they are available at a reasonable price from The Range). Completed science boards need to be handed into school by Friday 6th June. Grown-ups are allowed to help their children 😊

Your science board will answer one key question in any area of science that you choose. Ideas for your board could include:

- | | |
|----------------|-------------|
| • Solar system | Light |
| • Space | Heat |
| • Magnets | Temperature |
| • Volcanoes | Electricity |
| • Vehicles | Colour |
| • X-rays | Computing |
| • Plants | |
| • Animals | |

If you have any questions, please do not hesitate to ask Miss Gledhill. I cannot wait to see all of your fantastic science boards.

Thank you,
Miss Gledhill
